Obermann & Son Sell Gilt at That Price—McCance Gets \$200 For Pig.

A top of \$425 was made in the sale of the Lawrence County Poland China Breeders' Association sale at Aurora yesterday. STOP THAT ACHE!

Don't worry and complain about a bad back. Get rid of that pain and lameness! Use Doan's Kidney Pills. Many Monett people have used them and know how effective they are. Ask your neighbor! Here's a Monett case.

Mrs. Fred Cooper, 1103 Bond St., says: "I had been suffering from kidney disorder for some time. I had a heavy steady ache in my back and when I stooped over or turned in bed sharp pains would shoot through me. I felt all tired out and had terrible aches and pains in my head and became very nervous. Often black spots came before my eyes. My kidneys acted irregularly, too. I got Doan's Kidney Pills at McKee's Drug Store and used them. They gave me complete relief from the trouble and I am glad to say a few words in praise of this remedy. I have had no return of the trouble now in a long time." (Statement given April 5, 1916.)

On January 28, 1920, Mrs. Cooper said: "I haven't had need for a kidney remedy since giving my former statement and give the credit to Doan's Kidney Pills. They are certainly a fine kidney remedy." Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Cooper had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

Mr. and Mrs. F. E. Shaffer, Mr. and Mrs. S. A. McLaine and baby of Kansas City visited Mrs. Josephine Pruitt in Mt. Vernon, Wednesday.

MORE REPRESSION OF CRIME

Crimes of robbery have reached such a pitch in St. Louis that extraordinary methods of dealing with them should be adopted. If the regular process of the Police Department and courts have failed they need supplementing in some manner to produce results. Undoubtedly the abuse of the bond and parole privileges in the courts has had much to do with making young and reckless men feel there is a large immunity from punishment to those who commit crime. A tightening up in this respect is needed. More vigor on the part of the police in making more difficult the operations of robbers and in discovering and arresting them, more activity on the part of prosecuting officials in getting them tried and convicted and less leniency on the part of the courts in the matter of bonds and paroles, are needed. If modern conditions, such as the use of the automobile, have made robbery easier and the catching of robbers more difficult, it follows that police methods should be developed accordingly. If that means more men and more equipment, both should be added. The police force of the city should be kept at least abreast of the procession of crime development and improved methods.

There are two definite things which would serve as a protection to citizens and as an aid to the police in the prevention of crimes of violence. One of these is a more vigorous enforcement of the law against the carrying of revolvers. The other is the prohibition and regulation of the sale of weapons something the police authorities have requested for a long time. In a civilized community nobody should carry a weapon except an officer of the law. To do so is to violate the law. Nobody should be free to sell to any person that to carry which is illegal. Mere possession of a revolver is not contrary to law, to be sure, but to carry it on the person is, and very few purchase one for any other purpose. The forces of the law for the protection of the people need tightening up all along the line and should be given everything requisite for more effective work.—Globe-Democrat.

Considering how dry it is, this is a pretty peppery campaign.—Springfield Republican.
